- Jennifer Lamantia-Workforce Development Board
- Rose McHugh-Community Living
- Gena Robertson-SIRCH
- Amanda Duncombe-Point In Time
- Sue Tiffin-Haliburton County
- Janine Mitchell-CKL
- Lindsey Schoenmakers- CKL
- Jim Armstrong-Kawartha Works Community Cooperative Inc
- Kirsten Meehan-CKL
- Paulus Lacombe -Fleming Employment Services
- Nancy McLeod-CKL

Welcome:
- Welcome from Rachel to the group
- Each member in attendance provided an introduction and brief summary to the role and sector they support.

Community Data Program (CDP) Updates: Rachel Lewis
- Leads update – send dashboard ideas to Rachel to send along to CDP
  - Connected Economic Development departments at City of Kawartha Lakes and Haliburton with CDP for more information on the Rural Workforce Development project
- What are the limitations to accessing the data through CDP?
  - Just access data through Rachel
  - Some not confident in their abilities to find and work with the data
  - Support available through webinars and emailing CDP for support
- New tables/data added- Rachel will look into CPD new data email notification
  - Jennifer WDB interested in IRCC temporary residents table
  - Setting priorities – if interested in any of these tables let Rachel know to pass along to CDP
- Activity limitations data – would there be anything on children with disabilities (Janice)
- Webinars – all recordings available on CDP website. If you have webinar ideas send to Rachel to pass on to CDP

Presentation: Sue Tiffin – Haliburton County Community Safety and Well-Being Plan
- Slides shared with membership

City of Kawartha Lakes Provincial Housing Target Updates –moved to March meeting.

Group Discussion: Sub-municipal Geographies
1. What level of sub-municipal geography is most preferred within your organization/department?
    - Many use the human services neighbourhoods; some use the wards. WDB and Fleming MKES have larger boundaries but can provide data at the CD or CSD level.
2. How does your organization/department assign data to the appropriate geography?
    - CKL Business count report is by Wards, data is full address
    - Humans services and HKPR issue with matching postal code to sub municipal geography
    - Fleming MKES has full client address

Community-Based research projects
- Trent and Fleming have students that do research for organizations as part of their school program. Are there any project ideas that we could submit as a group to either Fleming GIS or Trent/U-links? Send ideas to Rachel.
- WDB currently has a project with Trent and has worked with students in the past. Highly recommend.

**Next Meeting**

Tuesday March 26th 2024 9:30-11am.
